

Yoshimoto, Du What U Do

<It's been a cold day since the first time
You were a lonely child
You were a friend of mine

I always had these feelings deep inside
When you do what you do to me
You make me lose my mind

So in love in each others eyes
Seeing thru the end of time
Makes me want to try

Just do what you do to me
Do what you do
Just do what you do to me
Do what you do

It's been a cold day since the first time
You were a lonely child

So in love in each others eyes
Seeing thru the end of time

Makes me want to try
Makes me want to try
Makes me want to try

So in love in each others eyes
Seeing thru the end of time
Makes me want to try

I always had these feelings deep inside
When you do what you do to me
You make me lose my mind

Just do what you do to me
You make me lose my mind
Just do what you do to me
You make me lose my mind>
