

You Am I, Sound As Ever

I can read your degree and now give me my medicine
Cause every drink is a poison and I think I'm Judas Christ again
She's got a feeling its a sound I'm faking
I got a feeling each corner's an ending
Each minute is a dollar you can pay back your parents with
I got a brand new vein you can tap on in and since
now that you've got the power of mercy
And the chance to figure out just where I've been lately
Now that you've got a sniff of pharmaceutic
That can kill anything in my head that's electric
and I'm alone with sound
Now that you've got the power prescription
Please make me interesting
When I'm all done with sound

Read my mind
Cause I won't give sign
She's got a feeling its a sound I'm faking
I got a feeling each corner's an ending

Its all sound....
