(Verse)

The day whenever since i picked you up  
You told me, you'd never let em hit me up  
I believed ya, knowin in my heart i'd need ya  
Put you on my waist so no one could see ya  
Boppin niggas hatchets ya know what to do witcha  
Used ya up and tomorrow they thru witcha  
I might of kicked you out the car before  
But i came back to get ya when they let me go  
Had to fill ya up and get you back to the streets  
A couple of jobs gotta get done before we sleep  
I love you girl, you done increased my salary  
So tonight im askin will you marry me

(Chorus-Girl/(Young Buck))

For so long that we been friends  
I never seen so much in you (We ridint tonight, we ridin tonight)  
Lets start this love affair again  
I never seen so much in you (Ride-di-di Rideee)

(Verse)

Talk to em girl let em hear yo name  
Niggas get scared when you spit out flames  
Ya like when i hold ya and squeeze ya  
As soon as ya empty i run to go feed ya  
Point you at people, and when you open ya mouth  
These industry niggas find out what we bout  
I told ya, ride with a soldier  
You aint got time to be trapped in a holster  
When we roll with em remember what i showed ya  
Had to remind you, the beefs not over  
Here we go girl heres my proposal  
I can feel it, you gettin closer and closer

(Chorus-Girl/(Young Buck))

For so long that we been friends  
I never seen so much in you (We ridint tonight, we ridin tonight)  
Lets start this love affair again  
I never seen so much in you (Ride-di-di Rideee)
