

Young Deenay, Birth intro

Another funky track from the one they call Deenay
at the show, in the club, I am coming your way
kickin it live words fly like bullets
mouth is the gun she mc the illest
Im a hardhead follow me into my solo
stepback if you need another demo
you cant stop me from what Im doin if Im doin
your style is fake and Im about to ruin
Evrything that you might thought that was yours
Ill take it and brake it and make it to the floor
coz Im too hard to core take it to the limit
young Deenay is comin atcha in less then a minute
I got the flow I get the party goin
Im the funky sista that you wanna be doin
wave your hands in the air from side to side
let me take you on a ride, right?
