

Young Deenay, Walk on by

You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
F. A. T. I. M. I.
Yo - that's my name so check it out
I got some natural skills
And I know what I'm talkin' about
You might think that I'm too young
But - yo - I gotta goin' on
And 'cuz I'm young
The rhymes kick so fresh and strong
I saw you once or twice
On my way home back from school
Just looking faster was it - ha -
But he was acting cool
I got to go - OK - no way to stay
And that's alright - alright
I passed your way and now the chimes
And now the day or night
You came back to me Wednesday night
When I dreamt of you
'Cuz I dreamt of love, screaming passion
And the things we do
Oh, Sugardaddy, please
Let me know what's on your mind
Curiosity is killing me
I wanna spend more time
So little do you know
About the funkyness inside me
So come a little closer boy
And don't you try to fight me!
Honesty is a must
But you and me can let it go
I touch your mind, I'll free your soul
Come on, no fear of flow
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
Whenever you just walk on by
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
Oki-dok', I'm coolin' with my best friend
I try to explain - and she is a girl - you better understand
"This guy just is no good for you
he's gaming on you, sister"
"I know, but - hey - what can I do
I like the funky mister"
Saturday night and I'm feelin' kind of lonely
Everyone with someone and me
I am the only
Not to have a cutie
Now do you think that's fair?
This guy just wants a booty
But I don't even care.
There he is, my shining star
Is with a bunch of brothers

Smiling at me, coming to me
"Boy you're like no other!"
"Hey Man, I am Frandell,
I like the way you smile at me"
"I know this sounded kind of odd
but I don't look for company"
Boy, oh boy
Didn't you recognize me yesterday?
My heart goes boom-boom
Now I can't let him get away
Stay baby, stay - until the break of day
I'll show you love
I'll bring you joy - but anyway...
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
Whenever you just walk on by
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
So take a ride!
I'll show you love
Got me baby!
Whenever you just walk on by
You can feel my heart
You can be my love
I will be there
Whenever you just walk on by
Whenever you just walk on by
You can feel my heart
I can feel your heart
You can be my love
I can feel your love
I will be there
Whenever you just walk on by
Whenever you just walk on by
You can feel my heart
I can feel your heart
You can be my love
I can feel your love
I will be there
Whenever you just walk on by
Whenever you just walk on by
