[Spoken:]

I see you Zipo... I got ya homie

[Verse 1:]

No mo jose no mo rosie  
They locked my dog up and that ain't ro-zay  
All he wanted was the fame make it last forever  
You get some ones I get some ones we make it rain together  
I'm talkin Quabo dreams cristal fetishes  
Smokein' everyday just to keep ya sanity  
Just me and nigga like what up doe  
Still partyin' the club closed an hour ago  
I guess the back to back Lambo's a thing of the past  
We used to talk on a chirp now we talking through a glass  
Just like the glass I know he sees right through me  
Transparent I can't hide my window pain  
I'm thinkin' what to say to make him have a betta day  
I'm walkin' down this lil hallway like what the fu\*k I'm gonna say  
As I'm walkin' down the halls I feel the stress in the walls  
I need to lighten up man this sh\*t is too tense  
Feels like I need? my heart aches so bad  
When he sees my face he's gonna be so glad  
Then I look into his eyes swear to god I seen his soul  
Tell me what can make a hot boy stare so cold  
As I looked a lil deeper I saw a lil hope then he cracked a smile  
He still got his pride  
Keep doin' what you doin' hold us real nigga's down  
No matta what you do don't let us real nigga's down

[Chorus:]

Jeezy don't do it  
Don't you let em down young jeezy  
Don't you let em down young jeezy  
No no no no  
Noooooo  
Jeezy don't do it

[Verse 2:]

I done been through so much real life done lose touch  
And yet so much yell of my sence of smell and I don't mean that literally  
But I mean this literally these nigga's actors me I'm a factory  
Known for movin' big money sh\*t at least a tractor  
No breaks no tires I'm a ride for these streets YEAH till the wheels  
Fall off  
It's gonna take more then hate to get my focus off can't knock the  
Hustle still stackin' dead presidents They say he on his way out well that's a  
Reasonable doubt ain't no nigga's like the ones I got friend or foe politics as usual  
I'm feelin' it still livin' with regrets with all these imaginary playa's you must love me  
I told ya'll in do time the city is mine

[Chorus:]

Jeezy don't do it  
Don't you let em down young jeezy  
Don't you let em down young jeezy  
No no no no

Don't you let em do it no  
Don't you let em do it no
