(Chorus: Young Lungs)

Say she model, she know  
That she got it, I know  
Cigarette to, her lips  
She so young, beautiful  
Shawty jeune et jolie  
What she wanting from me

(Verse 1: Young Lungs)

Young beautiful  
And she lost now  
Putting up the walls  
Dont want them knocked down  
Trust issues think she forgot how  
Everybody that she loved is gone now  
Money come and go like the seasons  
Its almost fall now  
Feeling bout as empty  
That bottle of Pérignon now  
Feeling so alone but dont nobody  
Wanna call now  
Pop prescription pills in her room  
Yeah until they gone now  
Eyes can't see  
And I can't breathe  
Just lie to me  
Yeah lie to me  
Die for me  
Would you die for me  
Would you ride for me  
Ride for me

(Chorus: Young Lungs)

Say she model, she know  
That she got it, I know  
Cigarette to, her lips  
She so young, beautiful  
Shawty jeune et jolie  
What she wanting from me  
Shawty jeune et jolie  
What she wanting from me  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful

(Verse 2: PlanBe)

I know that she wanna know, where I wanna go  
Shady you have been, too slow, talkin on the phone  
Always begging me to roll, cuz you wanna smoke

Ten times in a row, it was your fault  
Fresh clothes, dreadlocks and some make up  
Wiesz to, wiesz to musisz przestać  
Wieczność, przez noc szukać szczęścia  
Rano tylko znów zastajesz pusty sześcian  
Rodzice się chyba cieszą, że uciekłaś  
Zostawiłaś całe piekło tego miejsca  
Szkoda tylko, że nie wiedzą na co cie stać  
Szkoda tylko, że nie wiedzą co już przeszłaś  
Friends just wanna pop some pills  
Fuckin with some weed  
Dancing on the streets  
Just some party kids

(Chorus: Young Lungs)  
Say she model, she know  
That she got it, I know  
Cigarette to, her lips  
She so young, beautiful  
Shawty jeune et jolie  
What she wanting from me  
Shawty jeune et jolie  
What she wanting from me  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful  
She so young & beautiful
