

Youngstown, Anything And Everything

Verse 1:

What do you dream about

Look at the stars honey

All you gotta do is pick one out

It's there for you

I'll be the one who makes your every dream come true

Chorus:

Close your eyes and baby

Make a wish

'cause baby, I'll give you anything and everything

The sky's the limit and my heart is in it

I'll give you anything and everything

Anything and everything

Verse 2:

Where do you want to go

Look at the world baby

All you gotta do is just say so

I'll take you there

Girl you know that love can send you anywhere

Repeat Chorus

Bridge:

I could spoil you

Make it easy

Make you happy if you let me

Won't you let me

I'll be the one who makes your every dream come true

Repeat Chorus to end
