

# Youngstown, Whenever You Need Me

It seems to be more precious than life itself  
Picks you up in spirits when you're going through hell  
The softness of your whisper as I take you by the hand  
Lets me know you really do believe that I will always be your man

CHORUS: So whenever you need me  
All you do is just call me  
And I'll be around when you're down  
Whenever you need me  
All you do is just call me  
And I'll be around when you're down

Many nights I've cried while you layed next to me  
To be the man to show you all my foolish insecurities  
And you taught me how to love and to raise a family  
That's why you'll always be (you'll always be) my baby

Repeat chorus

Whenever, whenever, whenever, ever, ever, ever  
Whenever, wenever, whenever, ever, ever, ever  
Spanish serenade

When the rain (rain) falls from the sky (sky)  
And there's no one there to dry your eyes  
Just say the words and I will be right there  
(I'll be there, I'll be right there)  
When it's wrong but it feels so right  
Just say the words and I'll be right by your side  
To love and care and hold you tight

Repeat chorus  
Whenever, whenever, whenever, ever, ever, ever (Oh,whenever)
