

# Your Hero, Dancers In The Carillon

Nobody can change our time  
Cause nothing change this game  
Its taking more and more part of us day after day  
When youre far from me  
I run to catch you then your secret missions to take me back  
WE GET NO SALVATION Its our love that kills our lives  
WE GET NO SALVATION But it makes us alive  
Dance now Sweet little princess  
Everything around you falls to pieces  
Dance now fly on the music and  
everything around you will disappear  
WE GET NO SALVATION This tale goes on and on  
WE GET NO SALVATION And music comes from a box  
Its something goes over the love  
Were never satisfied at all but tonight...  
I see our flame that burns  
It never had burnt like tonight
