

Your Hero, Where The Streets End

Just let yourself be embraced
by a brighter light
'n leave the only road you have walked
you won't believe your eyes
I'm not where you can find me
'cause I walked through that door
'n now I've just met myself
Hold me tight
when you look outside 'n everytime...
(you are terrified I am by your side)
So when I cry
I hold you tight
under this dreamin' sky
I'll read for you cloudy signs
'n time will run but we will hear no steps
(but we will hear no steps)
we're goin' to be alive
for the first time
I'm not where you can find me
'cause I walked through that door
'n now I've just met myself
Lightning will feed me
'n I'll be one thing
with stars 'n dust
Hold me tight
when you look outside 'n everytime...
(you are terrified I am by your side)
So when I cry
I hold you tight
under this dreamin' sky
Hold me tight,
you're leavin' your heart goin' blind
(out of human touch, out of human touch we'll shine)
So when I cry
I hold you tight
under this dreamin' sky
Why do we run through the fog
lookin' for the way back home?
Break this wall (come on)
Break this wall
One step is left so you gotta...
Break this wall
One step, man is left so you gotta...
Break this wall
Hold me tight,
you're leavin' your heart goin' blind
'n I hold you tight
Hold me tight
when you look outside 'n everytime...
(you are terrified I am by your side)
So when I cry
I hold you tight
under this dreamin' sky
Hold me tight,
you're leavin' your heart goin' blind
(out of human touch, out of human touch we'll shine)
So when I cry
I hold you tight
(so we will stand...)
Where the streets end!
