

Your Vegas, Aurora

Glitterballs and disco halls
and all that you can bare
In mini skirts and shoes that hurt
they're giving it away
So come over here,
come over here for
vodka lemonade
Come over here
come over here
It's time to feel betrayed

The world is turning just for us
Aurora, Aurora
The world is turning just for us
Aurora, Aurora
You convince yourself
that you will never be loved

Morning stars, we talk for hours
about Van Gogh and Klimt
We did it in style did it in style,
we did it in the end

The world is turning just for us
Aurora, Aurora
The world is turning just for us
Aurora, Aurora
You convince yourself
that you will never be loved
And you parade yourself like cats
lying in the sun
You've seen the hotel rooms,
you've seen the firefly moons,
You've seen the flowers that
bloom, you've seen love,
Seen love, seen love ...

The world is turning just for us
Aurora, Aurora
The world is turning just for us
Aurora, Aurora
You convince yourself
that you will never be loved
And you parade yourself like cats
lying in the sun
Oh you convince yourself that you
will never be loved
