

Your Vegas, Up Until The Lights Go Out

Starlet, when they call your name
Does it feel the same, does it feel the same?
A dancer from a golden age
When you take the stage and the curtains raise

Up until the lights go out

Look what you done, look what you done
Love is the drug that makes you feel sexual
When all I am I give to you

A stranger in the strangest game
I can see the shame written on your face
We were lovers when you knew my name
Thats the price of fame, thats the price of fame

Up until the lights go out

Look what you done, look what you done
Love is the drug that makes you feel sexual
When all I am I give to you
Look what youve done, nobodies won
Love is the drug that makes you feel sexual
When all I am I give to you

Up until the lights go out
Up until the lights go out

Look what you done, look what you done
Love is the drug that makes you feel sexual
When all I am I give to you
When all I am I give to you
Up until the lights go out
Up until the lights go out
