

Youth Attack, Laugh In Your Face

The way I act towards you will never change
As long as you stay the same
You look down on me as if I have no friends
But who are you to judge me any f**king way
So meet me at the corner after school
I go there and find nothing of you

You say you wanna fight me
You say you want me dead
Well I'm not scared of you
Or your f**king friends

You think you're the coolest kid at school
But you're just a wigger who thinks he's cool
So meet you at the corner after school
I go there and find nothing of you
I, I think you're a joke, a f**king joke
