

# Youth Brigade, Sound & Fury

Your heart starts beating faster and your blood begins to boil  
The music gets into your veins and there's a feeling to destroy  
All the hate and anger has been building up inside  
Got to let it out somehow before it takes your life

Adrenaline, response, noises in your head  
Adrenaline, response, noises in your head

The music is a part of you, it always will be - Sound & Fury  
The power is just surging forward, can you feel it - Sound & Fury  
Don't let it take hold of your mind - Sound & Fury  
Got to get into, but can you get out of the Sound & Fury

Now your pulse has swelled up and you're ready to explode  
The music spins you round and round, and the urge to hurt takes hold  
You don't need a reason, the crushing rhythm won't subside  
The thin line been crossed and you're on the violent side

Adrenaline, response, noises in your head  
Adrenaline, response, noises in your head

The music is now taking over, will you let it - Sound & Fury  
The violence is spewing outward, can you stop it - Sound & Fury  
Can it take over your mind - Sound & Fury  
Got to get into, but can you get out of the Sound & Fury
