

Youth Brigade, Violence

They call us fascist and then they pray
To the God that made the world their way
In whose name they kill and teach
The sermons and the laws they preach

Violence, just for kicks
Violence, does it make any sense
Violence, can you stop it
Violence, do you want to

Philosophy borne of the mind
Try to explain the problems of our lives
It can't explain away
That violence is here to stay

Say it's just our nature
We have to fight
Doesn't matter we've been taught
that Might Makes Right
