Looking in a 3D world  
Where the crowd is in control  
You said some small, talked some rubbish..  
The devil ... to take my mind  
But I can't quite get inside  
A place I try any other guy  
Why we... looking for guys to...  
And just like...  
It's all...

As I keep the roses growing ...  
All the other corpses we left...  
I've never seen them /4x  
There's a vacant watching from the ...  
All the...that story we was told  
I've never seen them  
I've never, never seen them!
