

Yu-Gi-Oh, One Card Short

(first verse)

Life's just a game
We all wanna win
Keep your hand a secrets
Unleash the monsters within
Sometimes it's over
Before it's even begun
If someone else get hurt
Then what have you really won

(chorus)

I'm always one card short
Always one day late
For once I'd like an ending
I can celebrate
Stacked the deck myself, so there's no one else to blame
I need just one more move
One final chance to prove...
I can win this game

(second verse)

Life's just a duel
That's how the world is made
But are we all players
Or are we being played

(chorus)

I'm always one card short
Always one day late
For once I'd like an ending
I can celebrate
Stacked the deck myself, so there's no one else to blame
I need one more move
One final chance to prove...
I can win this game

(third verse)

Is what happens next in your control
Are you doing what you want, or what you've been told
Do you choose the cards from your own hands
Or are we all just puppets in a master plan
One more move

(chorus)

One card short
One day late
Give me something
Something to celebrate
Stacked the deck myself, so there's no one else to blame
One more move, I'm gonna win this game
I'm gonna win this game
I'm gonna win this game
One more move, I'll win this game
Everybody celebrates
second verse
