

Yung Bleu, Angels Never Cry (feat. Moneybagg Y)

My Life a Mothafuckin Movie
(Yeah you right, I don't give a fuck)

My life a movie, My life a movie
Living the lifestyle, hope I don't lose me
I'm sipping active, and I'm feeling woosy
I guess I see you on that other side
But our angels never cry
The gangstas never die
Shit like a movie
This ain't scripted, this ain't dramatized
That shit left me traumatized
And we had to take the harder way
Fell in love, but I got hurt
It took my heart away
When it rain, It probably pour
But I seen harder days
(I know times get better)
Even though its hard to trust
So what, in this cold world
Pray to God that I could love someone
Till its over
Pray to God that he can fix my heart
Make it colder
Till that day come

I'ma be thuggin', so nigga
Pull up, what you cooking?
We put holes in that bitch
We ain't returning uhaul
Cause we put loads in that bitch
We don't go by them new laws
Stick to the codes in this bitch
My diamonds got me froze in this bitch

My life a movie, my life a movie
Living the lifestyle, hope I don't lose me
I'm sipping active, and I'm feeling woosy
I guess I see you on that other side
But our angels never cry
The gangstas never die
Shit like a movie
This ain't scripted, this ain't dramatized
That shit left me traumatized
(Me too, I ain't gone lie)
And we had to take the harder way (Hard)
Fell in love, but I got hurt
It took my heart away
(I felt like the game owed me)
When it rain, It prolly pour
But I seen harder days
(I need that)
Seen harder days
(I Swear)

I sip this drank
To cope my pain (Hurting)
All you know is what I show you
These blood, sweat, and tears
Behind these chains
Spoke shit into existence
When they thought it was a game (Showed 'em)
Knew I was bound to shine
Cause that what come after this rain

My life a movie, e'ry day a news scene
I sip Wockesha, that's my lil boo thing
Two men and a truck (Say what)
I used to move things
Happy when I get it
Hate to spend it
Having mood swings

My life a zoo-vie
I shoot the set up
Like a film foreal
I swear you hurt me more
Than I can love or feel
Let the money bring the fame
In the V trailer
Trying to get over you
But I ain't able
Popping pills and pouring fifths
I'd rather die instead
Smile and lie to anyone
I'd rather cry instead
Lord just take me
Why I sent them other guys?
Can't wait to see
You niggas on the other side

My life a movie, my life a movie
Living the lifestyle, hope I don't lose me
I'm sipping active, and I'm feeling woosy
I guess I see you on that other side
But our angels never cry
The gangstas never die
Shit like a movie
This ain't scripted, this ain't dramatized
That shit left me traumatized
And we had to take the harder way
Fell in love, but I got hurt
It took my heart away
When it rain, it probably pour
But I seen harder days
Seen harder days

On my project steps
Looking out the window
Thinking what's my purpose
What the fuck I'm here for
Tried to flip my first thousand
Put it all in crypto
Then the market crashed
Now I'm cl'imbing in yo window
We live a life of crime
And its amazing
Made it out a hundred shoot outs
Bullets never grazed me
But got into a hundred fights
You know the streets raised me
Just pulled a murder
Grandma think that I'm her sweet baby

My life a mother fucking movie
My life a movie, My life a movie
Living the lifestyle, hope I don't lose me
I'm sipping active, and I'm feeling woosy
I guess I see you on that other side

But our angels never cry
The gangstas never die
Shit like a movie
This ain't scripted, this ain't dramatized
That shit left me traumatized
And we had to take the harder way
Fell in love, but I got hurt
It took my heart away
When it rain, It probably pour
But I seen harder days
Seen harder days
Even though its hard to trust
So what, in this cold world?
Pray to God that I could love someone
Till its over
Pray to God that he can fix my heart
Make it colder
Till that day come
