

# Yung Bleu, No Good Decisions

Way in Miami

Way too far from the family

Way too far for my good decisions, hope I can manage

I just got that text, she said she landed

Send my security to help you with your baggage

And I got a lot of money, it's a lot more where that came from

I can be your sponsor, I just need you to back it up

Down in L.A., not too far from the Bay

Way too far for my good decisions, hope I can make it

She like, "Bae, I'm on the way"

Three a.m. in L.A. (L.A.), three a.m. in the Bay

Got a bitch on her way

And we can book a hotel or book a private suite

It really don't matter long as it's privacy

You tried to kill me, now that's fatal attraction

I think you overreacted

Come grab this weed and slow down a little

This shit here got me slowed down a little

What can you do when you got girls in different cities

And they all want your time but you can't give them all attention? It's crazy

Way across the country, shoppin' sprees and shoppin' 'til you get laid

She told me, "Nigga, this the city that pays me"

Way in Miami

Way too far from the family

Way too far for my good decisions, hope I can manage

I just got that text, she said she landed

Send my security to help you with your baggage

Down in L.A., not too far from the Bay

Way too far for my good decisions, hope I can make it

Uh, I left my heart way in the trenches, I don't need it

Askin' why he takin' these prescriptions 'cause I need it

I done been backstabbed so many times, they left me bleedin'

They like, "That nigga goin' global"

When the streets fuck with you, police fuck with you

With a shooter with me, he done killed at least four niggas

And I left the keys in the car with the motor runnin'

Gotta keep that faith, gotta know it's comin'

But I'm still runnin'

Way in Miami

Way too far from the family

Way too far for my good decisions, hope I can manage

I just got that text, she said she landed

Send my security to help you with your baggage

And I got a lot of money, it's a lot more where that came from
