

Yung Bleu, Walk Through The Fire

I fell in love with you
That's why it's hard to say goodbye
That's why every time you smile
I get a little bit closer to the sky

You better than me
I would've left you on the first time
That's why you, you better than me

And I'll be loving you through
Every moment, every wrinkle in time
I'll be loving you through
And I'll be loving you through
Every moment, every wrinkle in time
I'll be loving you through
And I'll be making up for yesterday, yeah
Fixing everything that I let break
And I will walk through fire
Just to hear you say
Say I do, say I do

I fell in love with you
That's why it's hard to say goodbye
That's why every time you smile
I get a little bit closer to the sky

And I'll be loving you through
Every moment, every wrinkle in time
I'll be loving you through
And I'll be loving you through
Every moment, every wrinkle in time
I'll be loving you through
And I'll be making up for yesterday, yeah
Fixing everything that I let break
And I would walk through fire
Just to hear you say
Say I do, say I do

Walk through fire
Walk through fire
Walk through fire for you
I would walk through fire
Walk through fire
Walk through fire (I would walk)
Walk through fire
All through the fire, all through the fire

I fell in love with you
That's why it's hard to say goodbye
Closer to the sky, mm
