

Yung Bleu, Your Love Is Dangerous

Your love is dangerous
Give me a warning before falling in love
Lately I been lost in the drugs
And it feel like I've been lost in your love
And it's so crazy how I fall for you
How I fall for you love

I live a lifestyle for the rich and famous
Buckle up cause it get dangerous'
And your love is feeling like poison
Yellow tape I got to be cautious
Aye I'm going crazy I'm hearing voices, drowning
Deep in your waters just like a dolphin
Hollywood, it stole my heart and I never found it
Now I need exotic drugs to keep me grounded
Lately I been lost in the drugs and why
Gotta get this money 'cause I can't trust no bitch
Lately I been lost in the drugs
Your love is dangerous
Give me a warning before falling in love
Lately I been lost in the drugs

Your love is dangerous
Give me a warning before falling in love
Lately, I been lost in the drugs
And it feel like I've been lost in your love
And it's so crazy how I fall for you
How I fall for you, love

I think I need you bad babe
It's love and loyalty for all of the shit you do, mm hmm
Freak don't get a night of sleep
I need another piece
I love the way you taste to me you're sweet as fruit
Jet ski in the backseat with me
We don't stop like it's just you and me
Girl you making it hard for me ohh
You like a rainy night with the top back
You want it all and I like that
Come throw that ass on a nigga lap
Ima show you how to act, mm hmm

Your love is dangerous
Give me a warning before falling in love
Lately I been lost in the drugs
And it feel like I've been lost in you love
And it's so crazy how I fall for you
How I fall for your love
