

Yung Lean, Volt

[Verse: Yung Lean]

Heart, heart, heart of a lion, lion

Heart departed from my soul

Thanks to everyone who hates me, only makes me fit my role

I got orange juice and doobies

I'll be tourin' troops and groupies

Shed fire, vampire, diamonds, diamonds, I got rubies

I got pills in my smoothies

SBE, Just some loonies

Move like gang hit the scene with my trueies

Money, money in my bank account

You know I've gotta spend it all

Flick the lighter's light

If I die you'll never see me fall

Fuck the police, till the, till the, till the curtain call

Ball? No, basketball, New shoes, bank calls

Mix it with some alcohol, Adderalls, till I fall

Not supposed to make it so we chase it till we got 'em all

Made it, did it, out of zero

Flipped it, got it, made a hero

Fuck the game, I've been a year old

Faster than you like De Niro

If you don't like me, get the fuck out my face

I'm ridin' in a starship, get the fuck out my way
