

Yusuf Islam, There Is Peace

There is peace
you can taste it if you try
can embarrassed it if you try

There is love
you can live it if try
you can give it if you try

People walk this earth
people rush around
but there is no rest till they hearts bow down

There is a dream
you can reach it if you try
you can make it if you try

There is a guard
you can know him if you try
you can aproched him if you try

There are angels
there are with you day and night
you can know them if you try

I have searched this world
I have seen the sights
But i will not rest till i past the line

There is heaven
you can oknow it if you try
you can go there if you try
and if god wills it it will be
