

Yvonne, Modern Love

I'm here to keep your lonely nights away
cheek to cheek I dance with you today
And the closer I get, the more I'm obsessed by you
And the further I go, the more I'm obsessed by you

You know that I meant what I said
I wanna see you from above
I wanna be left on the dancefloor
I wanna be the modern love

I'm here to keep your loneliness away
I'll be your drained lover if I may
And the further I go, the more I'm possessed by you
And the closer I get, the more I'm possessed by you

You know that I meant what I said
I wanna see you from above
I wanna be left on the dancefloor
I wanna be the modern love
The modern love

Drag me through the masses by the stage
erotic temptations within range
And the closer we get, the more you're obsessed by me
And the further we go, the more you're obsessed by me

You know that I meant what I said
I wanna see you from above
I wanna be left in the dancehall
I wanna be the modern love
The modern love
The modern love
I wanna be your modern love
The modern love
I wanna be your modern love
I'm the modern love
