[Z-R0]

Go on and put me for a show, I want ten grand plus half the do'
No sub in the front just plain Z-Ro, not a substitute cause I ain't gone go
Nowhere life is hard but it's fair, living my life like I don't care
Look at my feelings when they get wet, they tend to stare
Don't make a sudden move, just may be a sudden death
These characters think they bulletproof
But evidently, capping must not of been blessed
So victory for me, another victim of the mighty Southside
Got everybody running back off in the house, and scared to come back outside
Radio stations recognize, getting my regular thoughts in time
Hate me off that corner, Z-Ro tired of feeling nickels and dimes
The definition of a hustler, Houston Texas, we bleed the block
Ain't no way in hell it's ever gone stop, can't stop
