

Zaga Rehn, Uncover

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others, close to each other

In the daylight, in the daylight
When the sun is shining
On a late night, on a late night
When the moon is blinding
In plain sight, plain sight
Like stars in hiding.
You and I burn on, on

Put two and to-gether, for-ever will never change
Two and to-gether will never change

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others, close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover

My silent, my silent
Is in your arms
When the worlds gives, heavy burdens
I can bare a thousand times
On your shoulder, on your shoulder
I can reach an endless sky
Feels like paradise

Put two and to-gether, for-ever will never change
Two and to-gether will never change

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others, close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover

We could build a universe right here
All the world could disappear
Wouldn't notice, wouldn't care
We could build a universe right here
The world could disappear
I just need you near

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others, close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover
That's when we uncover
