Zaga Rehn, Uncover

Nobody sees, nobody knows We are a secret, can't be exposed That's how it is, that's how it goes Far from the others, close to each other

In the daylight, in the daylight When the sun is shining On a late night, on a late night When the moon is blinding In plain sight, plain sight Like stars in hiding. You and I burn on, on

Put two and to-gether, for-ever will never change Two and to-gether will never change

Nobody sees, nobody knows We are a secret, can't be exposed That's how it is, that's how it goes Far from the others, close to each other That's when we uncover, cover, cover That's when we uncover, cover, cover

My silent, my silent Is in your arms When the worlds gives, heavy burdens I can bare a thousand times On your shoulder, on your shoulder I can reach an endless sky Feels like paradise

Put two and to-gether, for-ever will never change Two and to-gether will never change

Nobody sees, nobody knows We are a secret, can't be exposed That's how it is, that's how it goes Far from the others, close to each other That's when we uncover, cover, cover That's when we uncover, cover, cover

We could build a universe right here All the world could disappear Wouldn't notice, wouldn't care We could build a universe right here The world could disappear I just need you near

Nobody sees, nobody knows
We are a secret, can't be exposed
That's how it is, that's how it goes
Far from the others, close to each other
That's when we uncover, cover, cover
That's when we uncover, cover, cover
That's when we uncover
