Zakk Wylde, Battering Ram

Through your fear I am reborn My hand of grief can't be ignored

You know my name, yeah you know who I am Frustrated turmoil again and again I am the spike which drives through your hand For I am eternal, battering ram

I'd kill myself to see you die As you suffer, tears of joy come to my eyes

You know my name, yeah you know who I am Frustrated turmoil again and again I am the spike which drives through your hand For I am eternal, battering ram

You know my name, yeah you know who I am Frustrated turmoil again and again I am the spike which drives through your hand For I am eternal, battering ram

You know my name, yeah you know who I am Frustrated turmoil again and again I am the spike which drives through your hand For I am eternal, battering ram

You know my name, yeah you know who I am Frustrated turmoil again and again I am the spike which drives through your hand
