

# Zara Larsson, On My Love - feat. David Guetta

Now I don't need the time to make up my mind  
That's on my love  
That's on my love, yeah

Hear my pain, can you hear my prayer?  
Take my breath, can you take me there?  
That's on my love, yeah, yeah

Into the dark, into the light  
Baby, I go  
Whether it's wrong, whether it's right  
I will follow  
I'll pay the price, I'll sacrifice  
That's on my love, yeah

On my love, on my love  
I put that on my  
On my love, on my love  
I put that on my love  
I put that on my love

On my love, on my love  
I put that on my  
On my love, on my love  
I put that on my love  
I put that on my love

That's on my love  
That's on my love

I still need you deep in my heart  
That's on my love  
That's on my love, yeah

You're the one thing I can't escape  
You're the fire to my warm embrace, yeah  
That's on my love

Into the dark, into the light  
Baby, I go  
Whether it's wrong, whether it's right  
I will follow  
I'll pay the price, I'll sacrifice  
That's on my love, yeah

On my love, on my love  
I put that on my  
On my love, on my love  
I put that on my love (I put that on my love)  
I put that on my love (I put that on my love)

On my love, on my love  
I put that on my  
On my love, on my love  
I put that on my love (I put that on my love)  
I put that on my love (I put that on my love)

I put that on my love  
I put that on my love

On my love, on my love  
I put that on my  
On my love, on my love  
I put that on my love (I put that on my love)

I put that on my love (I put that on my love)
