

Zaraza, Infliction

Nature is ruthless
And we should thank her
It weeds out failures
It weeds out idiots

There is a world
A brave new world
You are not needed
You'll be extinct

But in the meantime...(x2)

But in the meantime
You are the tumor
You are disease
Idiotic cancer

Your offspring cries
This dream is dying
Open its pain
And watch it lying

Develop reason
That's what we did
And for that reason
You'll be extinct...

I've seen enough
Of prayer healing
It is so useless
It is your feeling

The offspring dies
And you can't help them
Powerless they are
Your methods break them

Stimuli - think
Failure is needed
Nature is ruthless
And we should thank her

It weeds out failures
It weeds out idiots
