

# Zbeer, My Country

Somebody ask about my country  
All in my country is all right  
No one to one to talk my country  
But everythings is all right  
I hate... hate this country  
I fuck... fuck this country  
Day after day I see streetfighting  
Day after day I must go job  
But I don't feeling satisfaction  
And all is pretendet is all right
