

Zebrahead, Broadcast To The World

Brace yourself kid for the final collapse

Cuz the world is spinning fast

coming off its axis

Fight to survive, ode lay essay

And the kids with the guns shout

"Out of my way!"

Sex and violence are here to stay

Broadcast to the world

Out of control

Ready to fold

Broadcast to the world

Out of control

I want to have it all and I want it right now

I want to have it all and I want it now

[Chorus:]

So here we go reload

Another round implode

We're spinning now until our heads explode

And so I guess we know how far we all can go

We're on a mission to destroy the world we know

The saints and the sinners

have identity crises.

that spread like a virus

multiplies and lysis

Down to the bottom

Looted graves they turn

Eat the razorblade apple

Open a can of worms

Narcotics on the weekends

As the city it burns

Broadcast to the world

Out of control

Broadcast to the world

Ready to fold

Broadcast to the world

Out of control

I want to have it all and I want it right now

I want to have it all and I want it now

[Chorus]

You know we all are to blame

Broadcast to the world

Final collapse is on

Heaven and Hell collided

Broadcast to the world

Final collapse is on

We stand divided

[Chorus]
