

# Zebrahead, Mental Health

Let's Go!

The lights are on but there is no one home

Yeah I'm the type of guy that shouldn't be left alone

They say just one more night of observation

There's nothing like a permanent vacation

I break down like you want me to

But I will not give control to you

Sniff like a pound of glue

Forget all the things you put me through

Dial up the residue

Now I'm nuts, just like a blue cashew

I go Psycho (psycho)

Psycho (psycho)

And all I want is to go home just for a bit (hey hey hey)

But these padded rooms are the shit!

Whoa!

I'm happy in my mental health

Whoa!

These conversations with myself

Whoa!

They say that only time will tell

Whatever, I'm happy in my mental health

I'm happy in my mental health

1, 2, 123, Go!

Hey meet a friend of mine, now where'd he go?

He's probably sitting there but you would never know

They say just one more shock (yeeow!)

Try not to resist

They say lie down

And bite on this

[? ] shocks away

But the voices in my head are here to stay

[? ]

I get more drugs than DEA

One day they'll do a play

They take your shoelaces away

Psycho (psycho)

Psycho (psycho)

And all I want is to go home just for a bit (hey hey hey)

But these padded rooms are the shit!

Whoa!

I'm happy in my mental health

Whoa!

These conversations with myself

Whoa!

They say that only time will tell

Whatever I'm happy in my mental health

Straight jacket

Bad habit

Cuz I live for the habit

This static

Illmatic

Double dose is just like magic

Straight jacket

Let's have it

You pump up all my panic

Welcome this is my life

A padded room up in the attic

And all I want is to go home just for a bit (hey hey hey)

But these padded rooms are the shit!

Whoa!

I'm happy in my mental health

Whoa!

These conversations with myself

Whoa!
