

# Zebrahead, Move On

On track

Never look back

When bad times seem to distract

You got to make your way, don't you know that

Don't wait

Till it's too late

Got to let the bad times fail to illuminate, right?

Cause I can always tell when your falling

I can hear you calling

I can see it in your eyes when you're stalling

But after all you know that I'll be around

To pick you up when you're down

You never gave yourself a rhyme or reason

I know some days are too hard to bear

And if you need a hand, I'm standing there

You're the one that gives me inspiration

Change the way I see every day

I want to make you feel the same

Don't say

That there's no way

Every bruise heals someday

You got knocked down and that's okay

Come on, it's on

Get a move on

Its about what you got to do, not the things that you've done

Cause I can always tell when you're falling

I can hear you calling

I can see it in your eyes when you're stalling

But after all you know that I'll be around

To pick you up when you're down

Just another lie, just another reason why

You don't trust it, confidence is busted

Your running but you're rolling on fumes

And if you need a hand, understand that we can get through

Cause I can always tell when you're falling

I can hear you calling

I can see it in your eyes when your stalling

But after all you know that I'll be around

To pick you up when you're down

Cause I always knew that you'd move on

And I always knew that you'd be strong

...can you feel it?
