

Zed, Come on down

He's your focus when the lights not green
You come and go so soon
You pass him off now
As another friend
But nothing special
Since I've see what you're gonna be I couldn't
Leave that loaded gun in your hand
Said no no no
Said no no no
And I wish that you would coming down
And get involved
And I wish that you would stick around
Just come on down
Face the wall now
Seems you messed up again
How did you know so soon?
Don't pass it up now the colours change through the day
They're looking different already
Since I've see what you're gonna be I couldn't
Leave that loaded gun in your hand
Said no no no
Said no no no
And I wish that you would come on down
And get involved
And I wish that you would stick around
Just come on down
No don't you tell me whats on your mind
Cos if I hesitate and run
Or leave that loaded gun in your hand
Well I wish, I wish, I wish
And I wish that you would come on down
And get involved
And I wish that you would stick around
Just come on down, yeah come on down
And I wish that you would come on down
And get involved
And I wish that you would stick around
I wish, I wish, I wish
