

Zed, Don't you sometimes wish

Don't you sometimes wish that they would leave us all alone
In an undefined unequal kind of way we would be home
run down to the mailbox see if they forgot again
and remind me not to answer when they.....

(CHORUS)

Call I will be gone

Just leave the door ajar and run

Cos when they find you they'll just tie you down

And i'll never hear you call

What I need is something that will make me smile again

keep me up 'til midnight dreaming

And nothing hurts like they do even when they're on their own

so believe me when i tell you not to.....

(CHORUS)

Call I will be gone

Just leave the door ajar and run

Cos when they find you they'll just tie you down

And i'll never hear you call

Cos when they find.....

Don't you sometimes wish

Don't you sometimes wish

Don't you sometimes wish

Don't you sometimes wish that they would leave us all alone

Don't you sometimes wish

And don't you sometimes wish that they would leave us all alone.
