

Zeds Dead x Diplo, Blame (ft Elliphant)

It's just another Monday
[?] make me live
Life can't just be fun, babe
Yeah, really that's not deal
So, you're standing here then
I won't be home till late
Anecdotic pleasure
Don't, do not [?]

Yes, I'm too hot to handle
I'm too hot to handle
I'm too hot to handle
Yes, I'm too hot to handle
Blame it on the moonlight
Just blame it on my youth
I'm blaming on this star's style
That's the only truth

I can wait, but not forever,
Shat up, but not for long
Goodbye, but not forever
Can't close my eyes,
I love it till I leave it, leave it
I breathe until I burn, till I burn
Mama showing my face
I look for it, I look for it

Yes, I'm too hot to handle
I'm too hot to handle
I'm too hot to handle
Yes, I'm too hot to handle
Blame it on the moonlight
Just blame it on my youth
I'm blaming on this star's style
That's the only truth
