

# Zendaya, Parachute

Like a message in a bottle  
Put my heart out there  
Oh, yeah  
Tried to strum me like a guitar  
Couldn't play the part no  
No, yeah (yeah)  
So I locked my heart away  
build up my wall  
Nobody could figure me  
out at all  
Don't know how you got me  
Showed me like a prodigy  
So I

So I just jumped for you  
I jumped with no parachute  
Cause you took away all  
of my fear of flying  
And I just jumped for you  
And jumped with no parachute

To good to be true one  
must I believe it  
No, yeah  
But you keep on knocking it  
down brick by brick  
Oh, yeah  
Tried to lock my heart  
away build up my wall  
Then you came along and  
torn it down, yeah  
Boy you got me, showed  
me like a prodigy  
So I

So I just jumped for you  
I jumped with no parachute  
Cause you took away all  
of my fear of flying  
And I just jumped for you  
And jumped with no parachute

Jumped with no parachute  
Cause you took away all  
of my fear of flying  
And I just jumped for you  
Yeah, jumped for you

So I just jumped for you  
I jumped with no parachute  
Cause you took away all  
of my fear of flying  
And I just jumped for you  
And jumped with no parachute  
(For you)  
So I just jumped for you  
I jumped with no parachute  
Cause you took away all  
of my fear of flying  
And I just jumped for you  
And jumped with no parachute
