

Zero Nine, Angel

Life should be a simple blend
A whisper on the shore
No clever words you can't defend
The legend ever more

I made a lot of promises
Seems like I've broken them all
And since yesterday you've been gone

So here I am alone again
Staring at your door
Too afraid of to ring your bell
'Til you defeated like in hell

I've gone through lot of changes
I swear I've learn from the best
Give me one more chance
This time it'll last

refren:
Angel
I wanna share my life with you
I want you here beside me
Angel
I wanna live my life with you
I need you and if you let me
I do the best I can for you

On the edge of the broken dream
Don't know which I've been for
Just looking for some charity
It's not so hard and revealing

I've gone through lot of changes
I swear I've learn from the best
Give me one more chance
This time it'll last

refren;

Staying alive together
A time after time
Running away from here
Side by side

refren;
Angel
I need you and if you let me
I do the best I can for you
