

# Zero, Sunny days

In a way u can call me a fool  
I was praying to find love from you  
In a way,  
Love in chasing me every day  
From the day you left I was lonely  
It was all the same  
Different story  
Why do you have to go  
Why my life is it so  
We're so bad i didn't know  
Tell me where is the love  
Or I belived in a lie  
Tell me what do you feel  
When you look in my eyes  
I'm singing the same sad song  
That remindes me of you  
Oh, I would give you my love  
If you'd ask me to  
They say that love is a drog  
It can take you soo high  
It can make you strong  
But you'd been liveing a lie  
I gues I might be hurt (bis)  
Don't worry I'll be OK  
Sunny days,look around you now  
Find a place where you can't be found  
Don't be scared  
Dreams will take you soo far away  
I'm the man who can't be arround you  
I'm the man who stays just behind you  
Why do you have to go  
Why my life is it so  
We're so bad I didn't know  
Tell me where is the love  
I belived in a lie  
Tell me what do you feel  
When you look in my eyes  
I'm singing the same sad song  
That remindes me of you  
But I could give you my love  
If you'd ask me to  
They say that love is a drog  
It can take you soo high  
It can make you strong  
But you'd been liveing a lie  
I gues I might be hurt (bs)  
Don't worry I'll be OK.
