

# Zero Tolerance, Student Life

I can't stop what I am feeling  
If only you would start believing  
We could be that what others dream of  
Only to refind that magic in our love

Chorus:

We had some good times  
and then with no sign  
you walked down stover  
and now its over  
I thought that we were  
all that and then more  
and on the same day  
you sent me on my way

We were so close to that era  
I don't know why you're not my hero  
but I do know how much I need you  
I hear you say, you feel the same way

chorus

You want time to think your mind  
my wait is in pain will be in vain  
now we're done you've found someone  
he can't give you all that I do

chorus
