

Zeromancer, Ammonite

It's hidden well deep inside
You don't want me to tell you why
What means nothing to you
means everything to me

Is it raining tears to the floor
I don't know you anymore
Is it raining tears to the floor
I don't know you anymore

Come on crawl out of my head
Ammonite
What means nothing to you
means everything to me

Means everything to me

Is it raining tears to the floor
I don't know you anymore
Is it raining tears to the floor
I don't know you anymore

That was then this is now
Got to get through somehow
That was then this is now
Got to get through somehow
Yeah got to get through somehow

You can say what you can't say
the answer to the honest thing
