

# Zeromancer, God Bless The Models

Love Love Love  
makes you blind blind  
Lies Lies Lies  
tear you down

Plenty of time when you're dead  
to be the perfect girl  
There's plenty of room in your bed  
to make a perfect world

Love Love Love  
makes you blind blind  
Lies Lies Lies  
tear you down

Out of a fucked up head  
comes a perfect girl  
Out of a fucked up head  
one perfect world

I want to fall a million floors  
I'm gonna breathe through open pores  
I'm gonna scream out open doors  
God bless the models

Time Time Time  
makes you learn learn  
that love love love  
you will have to earn

Out of a fucked up head  
comes a perfect word  
Out of a fucked up head  
comes a perfect world

I want to fall a million floors  
I'm gonna scream through open doors  
You'll make the headlines when you die  
God bless the models

Out of a fucked up head  
comes a world of lust and greed  
Out of a fucked up head  
comes a life of luxury  
Out of a fucked up head  
I'm gonna be there when you die  
Out of a fucked up head  
Don't cry

God bless
