

Zeromancer, Need you like drug

You've got a halo hanging over your head
Nothing can touch you
Nothing can hurt you
You take the world out of my eyes
You suck the words out of my mouth
When we kiss
Need you like a drug
Need you like a drug
Can't make it stop
Keep fucking it up
Need you like a drug
Don't ever want to be like you
You have your friends calling you to say
That nothing can touch you
Nothing can hurt you
Nothing can take your fantasy away
Nothing can touch you
Nothing can hurt you
When we kiss
It stings like a needle in me
