My bros trap for the money  
Get busy in the bando  
I'm laid back just chilling with the gang though, aye  
Got a fine girl I don't need ya  
So baby fall back take a seat, ah  
She a five-star chick  
That's first class dinner  
Take her to the crib and put the main course in her  
Baby don't tease me man stop that  
And girl take wood she loves that  
She was looking all classy  
I'm like "excuse me miss, can I get your number?"  
She typed it in my phone  
Man I was in my zone  
A badabing badaboom  
And now she in my room, and now she in my room  
We getting cozy  
Damn it's getting hot, it's getting toasty  
She was looking like a challenge, so I patterned it  
Batty looking mad I had to tap on it  
Dubbel tapping on Insta  
Yeah she got the D out the DM  
She was low bat, so I charged her  
And now she got the Juice and Power
