

# Zita Swoon, Waiting Til Youre Gone

I can spend my time with those who wait  
I can spend my time killin' time  
We don't talk when you're around  
I can spend my life in this crime  
I'm like a statue made of ice  
And she is lookin' just as good  
And she is lookin' just as cruel  
And it's not because of her lies  
It's just in the way she does  
All the things that she must do

And I'll be waiting 'til you're gone

You wanna know just what I did  
I'll talk about your eyes  
And I will watch you as you smile  
And I'll try to keep you smilin'

I'm like a statue made of ice  
And she is lookin' just as good  
And she is lookin' just as cruel  
And it's not because of her lies  
It's just in the way she does  
All the things that she must do  
And she don't know what I do  
But she holds it in her hand  
And she throws it back at me  
And it's not because of her lies  
It's just in the way she does  
All the things that she must do

And I'll be waiting 'til you're gone
