

Zoe, My love is dangerous

I'll lift you up - I'll cut you down
I'll make you smile - I'll make you frown
I'll take your heart - I'll tear it out
I will succeed, without a doubt
My love is, my love is, my love is dangerous
My love is, my love is, my love is dangerous
My love is, my love is ..., right now you wouldn't guess
I'll just have to confess

CHORUS

My love is dangerous, hear my warnin`
Just look but you`d better not touch
My love is dangerous, maybe deadly
For you it might be simply too much
My love is dangerous
My love is dangerous
I'm hot as hell - I'm cold as ice
I told you once - I told you twice
I'll heal your wounds - I'll cause you pain
I'll wind you up, drive you insane
My love is, my love is, my love is dangerous
My love is, my love is, my love is dangerous
My love is, my love is ..., right now you wouldn't guess
I'll just have to confess

CHORUS

My love is, my love is ..., right now you wouldn't guess
I'll just have to confess

CHORUS

CHORUS*

My love is dangerous, hear my warnin`
Just look but you`d better not touch
My love is dangerous
My love is dangerous
My love is dangerous
