

Zola Jesus, Hunger

I got the hunger
It moves but won't lose it
I'm not gettin' younger
I use it, abusively
Abusively

I got the hunger, I got the hunger in my veins
It's takin' me under till it takes me away
I got the hunger, I got the hunger in my veins
I won't surrender, still it takes me away

It's been five years waitin' around for
Crooks that will swallow gold
Sick of being sick, tired of these?
It won't save me, it won't pleased me, no
I got a hunger, it will not let go
I got too many roads to know

I got the hunger, I got the hunger in my veins
It's takin' me under till it takes me away
I got the hunger, I got the hunger in my veins
I won't surrender, still it takes me away

It's been too many times, I've tested myself
Waiting up on Nemo, absolute hero
Mother Lung, gimme a heart shake
Suffer, this maze I gotta break
It won't let up, it won't save me, no!
I got a hunger that will not let go
I got too many roads to know

I got the hunger, I got the hunger in my veins
It's takin' me under till it takes me away
I got the hunger, I got the hunger in my veins
I won't surrender, still it takes me away

(Takes me away)
(Takes me away)
(Takes me away)
There is something I want
I long for, I need
There is something I want
I long for, I need

I got the hunger, I got the hunger in my veins
It's takin' me under till it takes me away
I got the hunger, I got the hunger in my veins
I won't surrender, still it takes me away
