

Zolita, Ashley

The silver chain around your neck
I hate myself when I think of it
Cause when I do I'm a wreck
Your name rings round in my head

We're drunk and in your room
I hope you feel it too
I usually play it cool
But I can't play cool for you

Oh, Ashley
I need you so badly
Cause life is a bad dream
So if lovin' you kills me
Yeah I would die happy

Oh, Ashley
I'm yours if you'll have me
I'm sick it's so sappy
But if lovin' you kills me
Yeah I would die happy

Your biggest fears my history
And mine's the thought of what could be
If there's a world with you and me
Then there's a world where you could leave

Drunk and in your room
I know you feel it too
I usually play it cool
But I can't play cool for you

Oh, Ashley
I need you so badly
Cause life is a bad dream
So if lovin' you kills me
Yeah I would die happy

Oh, Ashley
I'm yours if you'll have me
I'm sick it's so sappy
But if lovin' you kills me
Yeah I would die happy

I know that one day you could hurt me
And I will probably deserve it
Maybe our best is less than perfect
But I'm sure that this is worth it
